

The Michigan Southern and Northern Indiana Railroad, unaffected by the stringency in monetary affairs, is now doing a most extensive business. The line traverses the best counties of Northern Indiana, and connects Chicago with Toledo, through a distance of almost two hundred and fifty miles. The *through* travel, from east to west, and vice versa, which is a very large trade is immense. Four passenger trains are run daily each way, yet they are scarcely adequate to the demands upon the company. During the past week, one train, embracing sixteen first class cars, and run by two engines, conveyed from Toledo to Chicago eleven hundred passengers. Another train, a few days afterwards, transported nine hundred passengers.

The energetic management of the M. S. & N. I. R. R. is, of itself, a high commendation of the executive officers of the company, among whom it always affords us pleasure to mention the name of the present worthy Superintendent, Mr. JAMES MOORE. Few men could discharge, with equal efficiency, duties so extended and manifold as those devolving upon this gentleman.

REVELATION.—The interest on the subject of religion, says the Madison *Banner*, which has been almost universally absorbing the minds of the community in this place is unabated. Meetings are still held morning and evening in nearly all our churches, and at the sound of the eight o'clock bell, people from every direction may be seen issuing from their houses, and going with swift feet to the various houses of worship. Much of the interest is felt by the young, though not confined to them, it is beautiful to see their heads bowed in humble adoration to the Author of their being. Religion adorns the character of every one, but in the young, we think it particularly lovely. It is a safeguard, too, from many temptations which beset the pathway of life, and many hearts which are run on to the happiness as well as property of the individual. It prepares them for living usefully and dying happily, and we rejoice to see many taking upon themselves the pleasures of a religious life.

FAMINE AT WORK.—The force comes along the highways, says the Brownstown *Democrat*, will demonstrate by the number of carcasses and focking vultures, that famine has been doing its work. The lank-skinned hogs and the lean cattle and horses, proclaim the fact. If we say that thousands of hogs have died in this county for the want of corn, it is true; and accounts from adjoining counties are even worse. Cattle and horses have been dying in great numbers for the want of food. Famine may not have laid its hand on man in many instances, but we hear of a few cases, even in the opulent city of Madison, and there is doubtless want in many instances. Now is the time for charity. Doubtless many who have given largely to send light to the heathen in foreign countries, will now find a larger field and a more pressing demand for the exercise of this noble virtue, (charity) at home.

A movement is on foot to establish, on a permanent basis, in this city, a Temple of the Drama, to be controlled by a joint-stock company of citizens. Yankee Robinson has disposed of his scenery to a committee who will distribute the same, in connection with a number of valuable gifts, to the purchasers of the enterprise. But 400 tickets will be issued, to each one of which is attached two coupons, which entitle the holder to two admissions to the Athenaeum, any evening prior to the close of the present season. The number of prizes is fifty-five. The distribution will come off at the Athenaeum on Friday evening.

We learned that the scenery, &c., will probably be rented to a theatrical manager of Cleveland, who will open for a short season, with a good company, to commence sometime in May. The BATEMAN Children, and the RICHMONDS, are the stars likely to be engaged.

ANOTHER CATALOGUE OF SUICIDES.—On Friday evening last, as we learn from the New York *Times*, a man of genteel appearance, named RUSSELL, committed suicide while confined in the Eldridge street Prison. The deceased was recently committed there on a process respecting some matters pending in one of the civil courts.

On Saturday morning, in the same city, a German named CHARLES HECKER cut his throat with a razor, and died soon after. Cause, financial troubles.

On Monday evening, REINHOLD ZIEGLER, a German, attempted suicide, with a pistol, at the house of his dulcinea, whom he believed to be faithless, at Albany. He will probably die.

So it goes. To some Death comes unawares, while others beckon him on. O, the battle of Life.

We are informed, says the Louisville *Journal*, that the president and board of directors of the Fort Wayne and Southern Railroad Company met in Jeffersonville on Friday, and the City Council of Jeffersonville convened also, and invited the board of directors of said company to meet the City Council in said chamber to consult together in reference to a subscription by said city to said road of two hundred thousand dollars of the bonds of said city. A resolution was adopted by the Council.

A dispatch gives an account of a most distressing murder perpetrated a few days ago, near Wytheville, in the Northwestern part of Virginia, upon the person of Mr. Wm. H. Speller, a resident of Wytheville. The murderer is represented as having been somewhat demented, caused by a matter of disappointed love, with reference to a relative of the deceased. Mr. Speller, the murdered victim, was an extensive merchant, highly respectable, and quite wealthy.

W. R. CORTEK has his box in the last number of the *Wabash Gazette*, as one of the editors of that paper. Mr. C. is a young man of great industry, and possessed of excellent talent as a newspaper writer, and under him and our esteemed friend FLETCHER, the *Gazette* will become one of the best papers in the Wabash Valley.

EXPLOSION OF A LOCOMOTIVE.—On Wednesday morning last the locomotive *Orange*, attached to a train on the Pittsburg and Cleveland railroad, but the boiler while standing on the track. David Parker, the engineer, was so severely injured that he cannot recover, and several of the employees were seriously hurt.

We yesterday received the name of a subscriber, with \$2. from Logansport. A post script to the letter, written by the postmaster, says: "This gentleman is an Old Line Whig, but he can't stand *fanciful* any longer."

This is a common complaint among the Old Line Whigs now-a-days.

THIS, THAT, AND THE OTHER.

Seventy-four of the cyprian vagrants of New York, recently arrested on the streets by order of Mayor Wood, and by him sent to the penitentiary, have been discharged by Judge ROOSEVELT, before whom they were brought on writs of *habeas corpus*. The N. Y. Times of the 3d states that in consequence of the ruling of the Courts no arrests of cyprians were made the previous night, and says: "A vigilant eye will be kept on them in future, however. The patrolmen have received orders to arrest any woman guilty of a breach of the peace by acting in a disorderly or indecent manner, or by blocking the sidewalks, &c. The recent action of the Mayor, it will be seen, will have, at all events, a salutary effect in compelling the street walkers to be a little more circumspect in their conduct on the street."

Chick! chick! chick! says the Connersville *Times*, are the sounds that greet our ears, as with unremitting energy the mechanism yields its broad-axe and works into shape the huge timber that are lying on our streets, and which are soon to grace the buildings being erected in our midst. We wish no better evidence of the prosperity of a place, than to see its mechanics always busy.

The day has come when our town can supply almost anything in the manufacturing line that may be called for. We are, emphatically, a progressive people.

The earnings of the Indianapolis and Cincinnati Railroad, for the month of March, are as follows:

Passengers	\$15,713.80
Freight	16,153.58
Express and Mail	1,148.48
Total	\$33,015.86
For March '54	\$2,272.72
Increase	6,072.40

A GROSS OUTRAGE.—A Louisville informant us last night, says the *Louisville Journal*, of a gross outrage which was committed on Market street last evening. A young man was standing in the door of a coffee-house, when a lady walked up to him and entered into conversation, evidently objecting to his clothing around such places. The man finally took the woman by the throat, choked her, and then kicked her. The woman was the young man's mother.

The Ripley Circuit Court, last week, sentenced Mr. MITCHELL to the penitentiary for two years, for forging a note for \$25. Mr. MITCHELL is probably the richest man in Ripley county, Ind. It is supposed his property is worth near \$100,000. It has been his strife to be rich, and now he will have the honor of bragging of being the richest man in the Penitentiary. Won't that be something of what to be proud?

The Rising Sun *Visitor* says, Mr. SAMUEL BUCKLEMAN and ISAAC PEARLER, with their families and several young men, left our number about twenty-five persons, left our number on Thursday evening, to seek new homes and fortunes in the "far off" Territory of Kansas. They take with them provisions for one year, and wagons, teams, and farming utensils of all kinds.

CHILD BORN IN A STAGG COACH.—A few days since, a lady who was riding in a stage from Pontiac to Flint, Mich., desired to alight at one of the houses on the road, asserting that she was not well. The passengers, however, insisted on her remaining till they should arrive at the next hotel, which was a short distance off. The result was, that when the coach reached the public house, the woman had given birth to a child.

A BODY FOUND.—The body of a man, says the Louisville *Democrat*, was found near the mouth of the canal, yesterday. From the appearance, it had probably been in the water some eight or ten days. His throat had been cut and a severe gash in his abdomen, either of which, we were informed, were sufficient to cause death. It has evidently been a foul case of murder.

The Boston *Telegraph*, alluding to the suppression by the public prints of the name of a "highly respectable merchant" in New York, who got into trouble in a house of ill fame, says: "respectability" was long ago defined in England as "keeping a gig." High respectability, it seems, consists in being robust of \$2,500 in a house of prostitution.

Died, on Saturday evening, the 31st ultimo, Mrs. LUCY S. CONNOR of ELIZABETH ST. The deceased was born on the 28th of October, 1780; and was therefore, 75 years, 5 months and 2 days old. Mr. CONNOR, her husband, was formerly for a long time editor and publisher of the "Western Sun," at Vincennes, Ind.

We regret to learn, says the Madison *Courier*, that Hon. JOSEPH G. MARSHALL is at present dangerously ill at the dwelling of his brother, in Louisville, Ky. The accounts received last night gave but little hope of his surviving the present illness; but, as there have been no dispatches received since, it is hoped he is getting better.

MORE KNOW NOTHING OUTRAGES IN CINCINNATI.—We learn from the Cincinnati *Commercial* of Tuesday, that a party of "Americans" mobbed a German, went into his private rooms, insulted his wife and whipped his children. This will do for such a party, but such dastardly acts would disgrace any nation.

APPOINTMENT.—W. P. RICH has been appointed Postmaster at Franklin, Ind., instead of T. H. ROBERTS, resigned. The office has been removed to General RICHARDS' drug store, where the business of the office will be attended to as heretofore.

The store of O. A. ASHLEY & Sons, of Grayville, Ind., was entered one night last week and robbed of \$30 or \$40 in gold.

An attempt was made on the same evening to plunder the store of Messrs. PRINCE & WOODWARD, of the same place, but failed.

The Tippecanoe Circuit Court, says the Lafayette *Courier*, Judge PERRY on the bench, commenced its Spring session on Monday, April 9th. There are over 400 cases to be tried, and the session will be a long one—six months, if necessary to clear the cumbersome docket.

The recent fire in the Tennessee penitentiary was the work of two prisoners for the purpose of making their escape. Failing in this, they subsequently devised a plan to assassinate the guards, but it was divulged.

The steamer *Huntville*, while lying at Hamburg, on the Tennessee river, was destroyed by fire on the 3d inst. This boat was built in New Albany about 18 months ago, at a cost of \$65,000. The loss is principally recovered by insurance.

MURDER.—The two aged sisters of ASHER KERNLAND, the notorious infidel of Massachusetts, have lately been most inhumanly murdered by some as yet undetected wretch.

The Board of Commissioners of New York have adopted resolutions adverse to the proposition for converting the Crystal Palace into a market-place.

It is humorously said that there ought to be a plenty of women in the camp, for the Russians come out with a fresh Sally.

Mr. STRATTON, the father of the well-known General Tompkins, is an inmate of the Hartford Lunatic Asylum.

COMMERCIAL.

OFFICE OF THE DAILY STATE SENTINEL, Indianapolis, April 12, 1855.
FLOUR—\$6.00 per 100 lbs. in bulk; \$6.25 per 100 lbs. in sacks; \$6.50 per 100 lbs. in barrels.
WHEAT—\$1.50 per bushel.
CORN—\$1.00 per bushel.
